

- ❖ **Patented Green-Power Air Ventilation Technology System Solution from Finland “The Nordic Way”**
- ❖ **Extremely energy efficient with low carbon footprint**
- ❖ **All-In-One System for purification, dehumidification, cooling/heating and energy recovery**
- ❖ **Provides clean, comfortable and healthy indoor air quality (incl minimal CO2, Radon, mould, bacteria, mildew, germs, VOC, fungus)**
- ❖ **For any purpose, new or retrofit existing HVAC (offices, shopping malls, residential, hospitals, schools, clean rooms, factories & more)**

- ❖ **Our Installation costs 15% less than a standard HVAC system**
- ❖ **We save 80% of operating costs compared to standard HVAC systems**
- ❖ **We provide world's 1st Ventilation System with dual control of Temperature **and** ABSOLUTE Humidity**
- ❖ **We use patented Rotary Energy Recovery Wheel Technology and Energy Bus System**
- ❖ **We provide 100% fresh air supply compared to 30% of standard HVAC systems and remove CO₂ & impurities**
- ❖ **We dehumidify supply air before bringing it into the building**
